

Mentor group Report 2017-2018

Mentoring system provide a better understanding of individual students and bring out their highest potential. Every year the names of all students are collected and arranged groups. They are divided into groups of 10-15 students. Each group is assigned a teacher/mentor who is responsible for collecting academic performance and class attendance of individual students. and completed their micro lessons, school lesson and other internal work also. Mentorship programs hold great promise for improving beginning teachers' day-to-day decisions and practice and for positively affecting students' academic growth.

curriculum, assessment, and instructional practices, skills were observed by mentor. mentor teachers are commonly tasked with providing students teachers with a structured and examining group skills, that affect classroom practice. the Mentor system support to student teachers to their academic growth, their lesson planning, delivery of instruction in class and use of various instructional strategies. Workshop organizing and learning soft skills also. As they reflect on their teaching, then mentorship going successfully. Mentoring not only inculcates effective procedures for enhancing daily decisions but also helps student teachers to reflect on their long-term commitment to the teaching profession. Mentoring programs have been shown to positively influence in student teachers. emotional support is the additional benefits of mentoring.

Mentor group Report 2018-2019

Mentoring system provide a better understanding of individual students and bring out their highest potential. Every year the names of all students are collected and arranged groups. They are divided into groups of 10-15 students. Each group is assigned a teacher/mentor who is responsible for collecting academic performance and class attendance of individual students. and completed their micro lessons, school lesson and other internal work also. mentors and mentees differed on various aspects of teaching practice and decision making. Both mentors and mentees perceived benefits of mentoring experiences in various practices. Mentors viewed that their role as a mentor helped improve student teachers' ability to reflect. mentorship is beneficial in increasing their knowledge of classroom /school assessments. Teaching, knowledge of learning, engaging and motivating students, lesson planning and implementation, collaboration with school and school teachers, improving knowledge of new teaching techniques, relationship with the building school environment, examining and adjusting instruction, leadership opportunities, and effective classroom management. These skills are critical for effective teaching and decision making for teachers. Mentors viewed possibly getting involved with administration, serving as a consultant, or owning their own school. And help and guide their mentor group. in my opinion, "Being a mentor helped me in developing leadership skills and may enhance opportunities to include student teaching supervision.

Mentor group Report 2019-2020

Mentoring builds strong relationships between teachers and students and is a powerful tool for connection and trust. With mentoring and the support of teachers, students develop the skills to set and achieve goals, becoming more engaged and more motivated.

This academic year due to covid pandemic the courses were conducted online only. But student was kept in touch through what App or phone during the lockdown period. And we start the guide and mentoring even moral support to student through online platform like zoom, Google classroom etc.

Mentor group Report 2020-2021

This year also all over world faced with covid. But online education help at that time.as per north Maharashtra university guideline our college continued to interact with student. Student also responded to the situation quite positively and their academic performance too have bee fine. We advised to upkeep their health and sprit and keep close contact with the mentor or college in case of any difficulty. We continue teaching, school lessons and micro teaching online platform.

Mentor group Report 2021-2022

Mentoring system provide a better understanding of individual students and bring out their highest potential. Every year the names of all students are collected and arranged groups. They are divided into groups of 10-15 students. Each group is assigned a teacher/mentor who is responsible for collecting academic performance and class attendance of individual students. and completed their micro lessons, school lesson and other internal work also. The teacher/mentor is given necessary information regarding his/her mentees and is expected to offer guidance and counselling as and when required. In isolated cases, parents are called for special meetings with the principal at the suggestion of the mentor.

The mentor group system has been useful in identifying learners and their abilities and skills. Based on the requirement deduced through a careful examination of each mentor's report, the institute organizes a remedial class on different subjects within the syllabus for needed learners.

The remedial classes have become systematized after the implementation of this system. NEED-BASED remedial classes have proved to be beneficial to the students in particular and the entire college in general.
